The Vibrant Club Summit was a success — good sessions were provided for members.

Lauren Rohana talked about her background:

Originally from Oregon, Portland - raised in Hillsborough.

Moved to Florida aged 20 — never expected to stay — went to USF to study humanities.

Then did a masters in Library Information Sciences at USF.

Worked for the Dunedin Public Library system for 8 years.

Married husband Eli in 2008.

She holds a position in collection development — overseeing four libraries in Hernando County, covering digital books and LinkedIn learning.

For book selection, she uses Amazon Journal — she reviews authors.

She says it is a challenge to keep bias out of selection, but she aims to provide for everyone.

Thank you, Lauren, for a very informative presentation.
